8. Accreditation Procedures

- 8.9 In reference to 8.4 and 8.5, applicant CBs are not allowed to issue more than the allowed number of non-accredited certificates. The non-accredited certificates issued in excess of the allowed number are deemed invalid. With effect from 1st October 2020, MPOCC will no longer allow automatic conversion of these non-accredited certificates even after the applicant CBs are accredited. As such, ‘fresh’ audits need to be carried out for all the affected entities.
